# AMERICAN INSTITUTE OF PHYSICS

**335 East 45 Street New York, New York 10017**

THE American Institute of Physics was founded in 1931 as a federation of leading societies in the field of Physics. It combines into one operating agency those functions on behalf of physics that can best be done by the Societies jointly. Its purpose is the advancement and diffusion of the knowledge of physics and its application to human welfare. To this end, it publishes for itself or the Societies the 20 journals listed on this page, as well as the 13 translations of Soviet journals; promotes unity and effectiveness of effort among all who are interested in physics; renders numerous direct services to physicists and to the public; and cooperates with government agencies, national associations, educational institutions, technical industries, and others in such manner as to realize the opportunities and fulfill the responsibilities of physics as an important and constructive human activity.

**MEMBER SOCIETIES:**

**The American Physical Society**
W. W. HAVENS, JR., *Executive Secretary*, 335 East 45 Street, New York, N. Y. 10017

**Optical Society of America**
MARY WARGA, *Executive Secretary*, 2100 Pennsylvania Avenue, NW, Washington, D. C. 20037

**Acoustical Society of America**
BETTY H. GOODFRIEND, *Administrative Secretary*, 335 East 45 Street, New York, N. Y. 10017

**Society of Rheology**
JOHN C. MILLER, *Secretary*, Union Carbide Corp., Bound Brook, N. J. 08805

**American Association of Physics Teachers**
ALFRED ROMER, *Secretary*, St. Lawrence University, Canton, N. Y. 13617

**American Crystallographic Association**
WALTER L. ROTH, *Secretary*, General Electric Research Laboratory 305, Schenectady, N. Y. 12301

**American Astronomical Society**
LAURENCE W. FREDRICK, *Secretary*, Leander McCormick Observatory, University of Virginia, Charlottesville, Va. 22903

**AFFILIATED SOCIETIES: American Association of Physicists in Medicine • American Institute of Aeronautics and Astronautics • American Society for Metals • American Vacuum Society • Cleveland Physics Society • Division of Physical Chemistry of ACS • Electron Microscopy Society of America • Geological Society of America • Instrument Society of America • Nuclear Science Group of IEEE • Philosophical Society of Washington • Physical Society of Pittsburgh • Physics Club of Chicago • Physics Club of Milwaukee • Physics Club of New York • Physics Club of Philadelphia • Physics Club of Richmond • Society for Applied Spectroscopy**

**CORPORATE ASSOCIATES:** Over 150 leading industrial enterprises and other institutions which contribute to the support of the Institute.

**JOURNALS:**

**The Physical Review** • S. PASTERNACK; P. D. ADAMS; J. R. ROESSER, *Editors*, Brookhaven National Laboratory, Upton, Long Island, N. Y. 11973

**Reviews of Modern Physics** • L. M. BRANSCOMB, *Editor*, National Bureau of Standards, Washington, D. C. 20234

**Journal of the Optical Society of America** • DAVID L. MACADAM, *Editor*, 68 Hammond Street, Rochester, N. Y. 14615

**The Journal of the Acoustical Society of America** • R. BRUCE LINDSAY, *Editor*, Department of Physics, Brown University, Providence, R. I. 02912

**American Journal of Physics** • FORREST J. BOLEY, *Editor*, Department of Physics, Dartmouth College, Hanover, N. H. 03755

**The Journal of Vacuum Science and Technology** • PAUL A. REDHEAD, *Editor*, National Research Council, Ottawa 7, Ontario, Canada

**The Review of Scientific Instruments** • J. B. HORNER KUPER, *Editor*, Brookhaven National Laboratory, Upton, Long Island, N. Y. 11973

**The Journal of Chemical Physics** • J. W. STOUT, *Editor*, Department of Chemistry, The University of Chicago, Chicago, Ill. 60637
